**NEWS BRIEF -**  
**June 22, 2004**  
**Tuesday at 8:30 p.**  
**m. in Norway**  
**Hello Race Fans!**

This morning brought much better weather and the chance to actually race today! The pilots' meeting was postponed until 11:30. There were some high clouds at 7 a.m., but they gave way to puffy cumulus, by grid time. After pilots' meeting, it was a race to be ready for the first launch at 12:30 p.m.

Bob Barber unfortunately landed out near the town of Flisa. He was fine, but frustrated. "I didn't hit a bump all the way down here," he told his wife Margaret. Manfred Franke and Tim McAllister both completed the task. I don't yet have scoring information, but I will post it when I know.

The big news of the day was really related to a procedure change. The organizers applied to the FAI for a change to the start gate. They added the option for a start line, which they used today instead of the three different start cylinders. The start line makes team flying easier, although some would say this is not true. I overheard untrained spectators saying, "look, there are sets of three airplanes flying together!" I suspect the score sheet will reflect the power of team flying today.

We may get one more good weather day tomorrow before more rain comes our way on Thursday.

Drop us a note at [soaringteam04@sbcglobal.net](mailto:soaringteam04@sbcglobal.net). Think thermals!

Susan McAllister  
 Team Captain/Manager

## Points of Interest

### CONTACT THE TEAM IN NORWAY

Back by popular request you can now e-mail the U.S. Soaring Team in Norway with greetings, encouraging words and well wishes. Please note that team members are very busy while the championships are underway and may not be able to reply to your message. Click "[Send the Team e-mail](#)" or click on the GO TEAM logo.

### WGC FLIGHT LOGS

All flight logs are available on the organizers site.

### ABOUT DAY REPORTS

The U.S. Team Day Reports are brought to you directly by Team Captain Susan McAllister. Susan inputs each days information on site in Norway and updates these pages directly from her laptop.

### YOUR TEAM SUPPORT

All US team members would like to thank those of you who have contributed to make participation in these international events possible. If you have not contributed to the team please consider making one! To see how, visit the U.S. Team Funding page [here](#) and the [Robertson Trust Web](#) here.

### U.S. TEAM COMMITTEE

The U.S. Team Committee has been working to establish a more stable management structure and better resources for our soaring teams. The objective are more transparent, accountable, sustainable and competitive United States soaring teams. See the full information on the new [U.S. Team Committee here](#).

### U.S. TEAM E-NEWS

Sign up today for the U.S. Team E-NEWS. This electronic newsletter is sent out roughly quarterly and covers all the team news. The sign up process is simple - start by [clicking here](#).

### TEAM NEWS, HISTORY & ARCHIVE

To catch up on all the news for the U.S. World Soaring Teams see the [U.S. Team News](#). See the U.S. [Team Archive](#) for team background since 1950. As part of the Archive tour see the [U.S. Team History](#) page for a complete listing of US Teams since 1950 or the [World Champions](#) page for a complete listing of champions since 1937.

## Country and Contest Site

Elverum/Starmoen, the home of the 3rd Club Class World Gliding Championships, is located 147 km northeast from the centre of Oslo, the Capital of Norway. Gliding over the Norwegian countryside is an incredible experience. Located at 60 degrees north latitude, the Norwegian summer brings long hours of daylight, allowing gliding under the "midnight sun" (even if you have to go 700 km to the north to see the sun at midnight proper). The thermals start early in the morning, and often last until

20:00 hrs. The thermal conditions are good with a generally high cloud bases. More information on the weather conditions can be found on the weather page. Visibility of 50 to 100 km and above is not unusual on sunny days. The conditions are often perfect for long distance flights. The airspace is generally free of restrictions, with only the Oslo / Gardermoen TMA to the south-west of the task area.
